Work Experience

Software Engineer at ComClever

August 2017 - September 2017

Developed a machine learning solution to the PrediStock project. The solution developed was a 5-hidden-node, 3 layer, feedforward neural network AI for predicting optimal stock levels.

Electronic Engineer at MBDA

June 2016, 2017 – August 2016, 2017

Worked as part of a team on missile electronics. Details are confidential and bound by the UK Government Official Secrets Act (1989) and a non-disclosure agreement with MBDA and the MoD.

Laboratory Researcher at Institut Jacques Monod/CNRS & University Paris Diderot

February 2014

Undertook independent research in hydrodynamics, laboratory work with M.A. Fardin to determine the threshold of instability of water in Taylor Couettes, data collection and scientific computing.

Laboratory Assistant at Imperial College London

April 2012

Carried out 1st year university practicals on pH buffer action and presented on Personalised Medicine.

Publications

Fardin, M.A., Hollis, T. et. al. (2014) 'Flow instabilities in large amplitude oscillatory shear: A cautionary tale', *Rheologica Acta*, 53(12), pp. 885–898. doi: 10.1007/s00397-014-0818-7.

Languages & Software

English (Native – IRL level 5), **French** (Native – IRL level 5), **Spanish** (Professional – IRL level 3)

Programming C, Assembly, VHDL, R, LabVIEW, MATLAB/Simulink, UNIX/Bash, Windows/Batch, BASIC, HTML, Python, WikiMarkup, LaTeX, Java.

Software Electrical (Altium, Visio, Zuken, NI MultiSIM, MPLABX, IPSA+), Acoustics (WinISD, Traktor S4, Virtual DJ, FL Studio, Audacity, Ableton), 3D CAD (SolidWorks, Google SketchUp), Office Applications

Independent Projects

| | |
|-------------------|---|
| HFCrypto | Innovative deep-learning cryptocurrency trading algorithm (in development, in Python) |
| Altfolio | Trading portfolio of nine alt-coin cryptocurrencies (developed, exchanges via Poloniex) |
| RainCrypto | Cryptocurrency ticker for Windows 10 desktop environment (developed, in Rainmeter) |
| ESP-18 | Line following robot embedded system, using PID control (built & developed, in C) |
| uClk | Alarm clock embedded system with automatic light and heat detection (developed, in C) |
| CloudLight | RF controlled smart-light (built, used by award-winning film director Florent Agostini) |
